

Notification of Paper Review Results

Four selected papers will be recommended for publication in *Geospatial Health*,
according to expert opinions.

The titles of selected papers are as follows:

1. Analysis of the spatial characteristics of Keshan disease in China
2. Multimorbidity in the Elderly in China based on the China Health and Retirement Longitudinal Study
3. Spatial characteristics of life expectancy and geographical detection of its influencing factors in China
4. Spatial distribution and risk factors analysis for different stage of syphilis in Mainland of China in 2012-2016

Please note:

1. Selected papers still need to go through the normal review process of this journal, and must be prepared according to the Guidelines for Authors. Please refer to the file *Geospatial Health* Guidelines for authors or visit the official website of [Geospatial Health](https://www.geospatialhealth.net/) for more details.
Geospatial Health official website: <https://www.geospatialhealth.net/>
2. Submissions must be conducted via [online submission system](#).
