## **9. Abstracts and full-text papers**

The International Society of Palaeogeography cordially invites palaeogeographers and experts of relevant disciplines to submit abstracts and full-text papers, and join the 4<sup>th</sup> International Conference of Palaeogeography.

(1) The requirements of the abstracts

Each abstract should include title, author's name, author's affiliation, abstract, keywords. Do not include figures and tables. For detailed requirements please refer to the typesetting pattern of the *Journal of Palaeogeography*.

(2) The requirements of the full-text paper

In order to improve the academic quality, all the applicants who prefer oral presentations should submit their full-text papers prior to July 1, 2019. For all the papers, please use the templates provided by the *Journal of Palaeogeography*. All the papers must be submitted in English with a quality of spelling and grammar suitable for publication, the sooner, the better. Chinese authors are also required to submit Chinese abstracts simultaneously.

After submission, the papers will be sent for peer-reviewing by the conference. Authors should revise their manuscripts according to the reviewing comments and send back their revised manuscripts to the conference on time. The revised papers, if being accepted by the conference, will be orally presented at the conference and will be published in the *Journal of Palaeogeography*. This is the most effective measure to promote the

development and innovation of the *Journal of Palaeogeography*.

## **10. Awards for the best presentations by young scientists/students**

The conference will award the best presentations by young scientists/students, with the following eligibility criteria:

(1) Authors should submit the full texts (in English) of their manuscripts according to the above-mentioned requirements, revise their manuscripts according to the reviewing comments and send back their revised manuscripts to the conference on time, and submit 5 copies of the full texts of their final manuscripts before attending the conference;

(5) The winners' papers will be published in the *Journal of Palaeogeography*.

Awards for the best presentations by young scientists/students will consist of a certificate, monographs, financial incentives, as well as exemption from the post-conference field excursion fee. If the winners submit their papers to other journals, the conference will cancel the awards.

The conference sincerely invites experts of palaeogeography and related disciplines to donate 5 copies of monographs as awards for the best presentations by young scientists/students.
